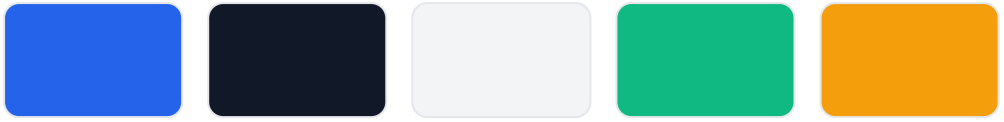
Uno brand guide

v3 · October 2026 · for the landing and the app

1. Voice

Short sentences. Say what happens for the person, not what the system does. No jargon: "your computer", not "VM"; "link", not "endpoint".

2. Colors



#2563eb #111827 #f3f4f6 #10b981 #f59e0b

3. Type

Inter for the interface, 13–15 px in panels. Headlines 28–40 px, semibold, tight line height.

4. Screens, not illustrations

Every flow on the landing is shown on a real screen of Uno Work. No stock photos, no 3D blobs.
